

VK4GHZ Nexion for K3NG Rotator Controller

5.0" Nexion Image Table

When adding images into this Nexion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
0		800	480	Splash Screen
1		100	75	Button CCW
2		100	75	Button CCW - Highlight
3		100	75	Button CW
4		100	75	Button CW - Highlight
5		100	75	Button Down

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
6		100	75	Button Down - Highlight
7		100	75	Button Up
8		100	75	Button Up - Highlight
9		100	75	Button Stop
10		100	75	Button Stop - Highlight
11		75	65	Icon Sun

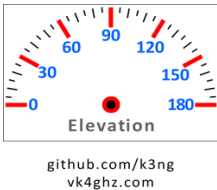

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
12		75	65	Icon Sun Track
13		75	65	Icon Sun Dulled
14		75	65	Icon Moon
15		75	65	Icon Moon Track
16		75	65	Icon Moon Dulled
17		250	250	EI Gauge Background

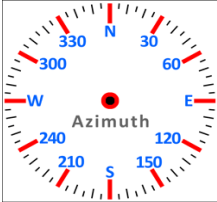

VK4GHZ Nexion for K3NG Rotator Controller

5.0" Nexion Image Table

When adding images into this Nexion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
18		250	250	Az Gauge Background
19	 github.com/k3ng vk4ghz.com	250	250	EI Gauge Rev Background
20		100	75	Button Set
21		100	75	Button Set - Highlight
22		100	75	Button Full CCW
23		100	75	Button Full CCW - Highlight

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
24		100	75	Button Full CW
25		100	75	Button Full CW - Highlight
26		100	75	Button Full Up
27		100	75	Button Full Up - Highlight
28		100	75	Button Full Down
29		100	75	Button Full Down - Highlight

VK4GHZ Nexion for K3NG Rotator Controller

5.0" Nexion Image Table

When adding images into this Nexion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
30		15	24	Icon - GPS
31		205	50	Picture Groups.io Logo
32		100	75	Button Park
33		100	75	Button Park - Highlight
34		100	75	Button 0
35		100	75	Button 0 - Highlight

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
36		100	75	Button 1
37		100	75	Button 1 - Highlight
38		100	75	Button 2
39		100	75	Button 2 - Highlight
40		100	75	Button 3
41		100	75	Button 3 - Highlight

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
42		100	75	Button 4
43		100	75	Button 4 - Highlight
44		100	75	Button 5
45		100	75	Button 5 - Highlight
46		100	75	Button 6
47		100	75	Button 6 - Highlight

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
48		100	75	Button 7
49		100	75	Button 7 - Highlight
50		100	75	Button 8
51		100	75	Button 8 - Highlight
52		100	75	Button 9
53		100	75	Button 9 - Highlight

VK4GHZ Nexion for K3NG Rotator Controller

5.0" Nexion Image Table

When adding images into this Nexion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
54		100	75	Button Back Space
55		100	75	Button Back Space - Highlight
56		100	75	Button Decimal Point
57		100	75	Button Decimal Point - Highlight
58		100	75	Button cancel
59		100	75	Button Cancel - Highlight

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
60		150	75	Button Enter
61		150	75	Button Enter - Highlight
62		100	75	Button Preset 1
63		100	75	Button Preset 1 - Highlight
64		100	75	Button Preset 2
65		100	75	Button Preset 2 - Highlight

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
66		100	75	Button Preset 3
67		100	75	Button Preset 3 - Highlight
68		100	75	Button Preset 4
69		100	75	Button Preset 4 - Highlight
70		100	75	Button Moon Track Activate
71		100	75	Button Moon Track Deactivate

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
72		100	75	Button Sun Track Activate
73		100	75	Button Sun Track Deactivate
74		100	75	Button Return
75		100	75	Button Return - Highlight
76		100	75	Button Go To
77		100	75	Button Go To - Highlight

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
78		800	384	ABC Keyboard - All
79		800	384	ABC Keyboard - Grids
80	4 or 6 character grid format required eg: AB12 or AB12CD	300	76	Picture - GS format Warning
81		125	33	Clock Status Blank
82		125	33	gCS Clock Status =0
83		125	33	gCS Clock Status =1

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
84	 RTC 	125	33	gCS Clock Status =2
85	 Slave Sync 	125	33	gCS Clock Status =3
86	 Slave Sync 	125	33	gCS Clock Status =4
87		100	75	Button Manually Calibrate
88		100	75	Button Manually Calibrate - Highlight
89		35	35	Icon Sun Small

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
90		35	35	Icon Sun Tracking Small
91		35	35	Icon Sun Dulled - Small
92		35	35	Icon Moon Small
93		35	35	Icon Moon Tracking Small
94		35	35	Icon Moon Dulled Small
95		100	75	Button Convert Down

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
96		100	75	Button Convert Down Highlight
97		100	75	Button Blank Grey
98		100	75	Button Blank Grey Highlight
99		100	75	Button Minus
100		100	75	Button Minus Highlight
101		100	75	Button Go To Result

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
102		100	75	Button Go To result Highlight
103		80	96	Button Keyboard Hyphen
104		100	75	Button Sat Track Activate
105		100	75	Button Sat Track Deactivate
106		780	380	World Map
107		35	35	Icon Satellite Small

VK4GHZ Nextion for K3NG Rotator Controller

5.0" Nextion Image Table

When adding images into this Nextion HMI project, the images MUST be imported so they are correctly referenced to their designated image id number.

Import them in the following order, and/or use the Editors up/down arrows to move them into the correct slots.

Image id	Image	Width (px)	Height (px)	Description
108		35	35	Icon Satellite Tracking Small
